

31 July 1974

MEMORANDUM FOR: Director of Personnel

SUBJECT : Agency Staff Personnel Strength as of 30 June 1974 by
Occupational Group and GS Grade

25X1A9A 1. As we discussed yesterday, the attached information was prepared
25X1A9A in response to a request of [] O/Compt. You asked to review the
report prior to release. We understand that [] is preparing to
respond to a request made by Mr. Oliver, OMB, on 17 July 1974 for data
on the 30 June 1974 distribution of Agency staff occupations by occupa-
tional groups and by grades for each group. Preparation of this data
required considerable hand tabulation but was felt to be responsive to the
request without exposing more detailed information through release of the
full machine run. This report does not include EP's, SP8's, CT's, TAS,
25X9A2 Military or Wage Board personnel which if included would bring the total
to [] as of 30 June 1974.

2. As far as we know, O/Compt does not know the precise use which
Mr. Oliver intends to make of the information but is inclined toward re-
leasing this report to OMB unless it is determined that such release is
inappropriate. We are told that Mr. Oliver was also prepared to request
25X1A9A release of similar data specifically concerned with supergrades until
[] pointed out that such supergrade information would be included
in this response to his main request.

3. The release of this information seems to involve basic policy
considerations since, to our knowledge, information of this kind has not
heretofore been requested by or released to either the CSC or OMB. There-
fore, as discussed, you may want to resolve these questions with Messrs.
Blake and Iams before releasing this report.
